

Health Education England

Covid-19: Auscultation and Respiratory Assessment

In response to the recent outbreak of Covid-19 and the need to prepare additional front-line staff to care for patients with acute respiratory symptoms, Health Education England have arranged and funded the following training to be available online:

Podcast: Presentation and additional resources

This is being disseminated electronically to facilitate wide distribution and access to all. Please visit: <http://hud.ac/gto>

Content:

This session will support you in developing the skills required to perform a respiratory assessment and auscultation. It will follow a structured guide following the principles of look, listen and feel approach. The session will include how to identify normal and abnormal breath sounds that may be heard and the pathology linked to these findings.

1 hour question and answer webinar

The webinar supplements the Podcast. It is designed to give participants the opportunity to ask the presenter questions. Please select a session from the list overleaf and book via the link.

Speakers

Deborah Lau – Registered Nurse Pg Cert Education, Diploma Nursing Studies, MSc Advanced Practice.

Deborah has worked within emergency medicine and acute medicine for the past 20+ years as a nurse and Advanced Clinical Practitioner. She has also worked as a Lecturer Practitioner for the University of Huddersfield for the past two years supporting both the advanced clinical practice and minor injuries courses.

She has experience of working in austere environments with the UK NGO UK-Med in Haiti and the Philippines supporting communities who have been affected by natural disasters.
