

ARDENS TRAINING

Session 1 summer 2020:

The first of the annual training sessions for practices across Calderdale and Huddersfield. All sessions will be on Microsoft Teams and open to all practices across the two CCGs.

These sessions will be one hour long and split by clinical group. They will be recorded to reach a wider audience.

Target Audience: Clinicians. GPs, ANPs, ACPs, Practice Nurses, HCAs. Plus your practice Ardens Super User/Practice Managers

Key topics:

For practice nurses and HCAs see
[SystmOne users](#) [EMIS Web users](#)

For GPs, ANPs and ACPs see:
[SystmOne users](#) [EMIS Web users](#)

Perfect for:

Clinicians to understand the benefits to using clinical templates in everyday practice. How Ardens templates can help with better quality referrals into CHFT to prevent referrals being returned and aid better patient flow.

Background:

Ardens is the leading provider of SystmOne & EMIS Web templates and reports used by over 2,700 practices across England. All practices in Calderdale and Huddersfield have had access to Ardens for S1 and EMIS for the last year and are using these packages to varying degrees. Using clinical templates will enable our Trust colleagues to effectively triage referrals and direct patients to the right place first time.
